INTRODUCTION

This document sets out the general principles governing the Conduct of Cofinimmo's activities.

We are judged by our actions. Accordingly, we must always act with honesty and integrity in order to safeguard our reputation. In seeking to carry out our activities within the framework of the law, all our actions must be dictated by what we consider to be right and proper at all times.

Cofinimmo is proud to uphold such fundamental values as honesty, self-discipline, integrity and respect for others, added to which trust, transparency, a team spirit and professionalism.

Our fundamental values determine our principles of conduct. These principles shall apply to all actions, however large or small, and must form the basis of the conduct expected of all members of the company bodies and staff of Cofinimmo.

Implementation of these principles is established in all the bodies of the company Cofinimmo and is accompanied by a set of procedures, the purpose of which is to ensure that each person in the company is acquainted with the principles of conduct and applies them to each of their actions, whereby conduct must accord with intentions.

These aspects, values, principles and procedures form an indissoluble whole.

Cofinimmo recognizes that the pursuit of growth and success for the company is founded on gaining and retaining the trust of the shareholders, staff, customers and third parties with whom it has business dealings as well as of the communities within which it operates.

In order to merit this trust, the attitude of everyone must correspond in all respects with the standards of conduct from which Cofinimmo has benefited for many years. All those in positions of responsibility have a duty to make sure that everyone is aware of, and complies with, the principles governing their activities.

I. CORPORATE VALUES

1. Objectives

Cofinimmo has set itself the objective of carrying out its activities in the real estate sector in an efficient, responsible and profitable manner. To this end, it aspires to achieve a high level of performance and, as a corollary, to maintain its position in a competitive environment on a lasting basis.

2. Responsibilities

As a company, Cofinimmo is aware of its responsibilities in different spheres.

Towards the customer: service and integrity

Cofinimmo must expand its customer base and increase customer loyalty by offering products and services providing good value in terms of price, quality, safety and environmental impact, developed by harnessing the necessary technological, environmental and commercial expertise.

Towards the staff: respect and fairness

Cofinimmo must observe the rights of its staff and provide them with good and safe working conditions as well as satisfactory and competitive terms of employment; it must promote staff development and training, make the best possible use of their skills, thus ensuring that their career within the company brings challenges, satisfaction and recognition. It must ensure equal job opportunities, and it must encourage the involvement of its employees in organizing and directing their work as well as in applying the principles of conduct in force within their company.

It is clear that only a highly motivated workforce, who is adequately trained and recognized as having a key role in the organization, will have a sense of being an integral part of the whole, be willing to commit to the company and make the company's objectives their own. Such motivation will be achieved by the daily attention of the management, which is aware of the potential of its staff and resolved to tap and enhance this potential to an optimal degree.

Towards the shareholders: loyalty and transparency

The Company must protect their investment and seek to uphold its good reputation with a view to securing for the shareholders a return in line with the market requirements.

Towards third parties with whom it has dealings: partnership

Cofinimmo must develop mutually beneficial relations with its subcontractors, suppliers and associated companies, and by its example promote the application and promotion of its principles of conduct by the parties with whom it has dealings. Compliance by all with these principles will be a key factor in decisions on entering into or maintaining such relations.

It will ensure that the goods and services acquired and the methods used to obtain them satisfy the most stringent requirements with respect to the law, ethical principles and environmental requirements.

Towards the community: ethics and responsibility

Cofinimmo must conduct its activities as a responsible and community-minded company, respectful of the laws of the Country. In its entrepreneurial capacity it must also uphold basic human rights and pay the necessary attention to health, safety and environmental aspects in keeping with its commitment to contribute towards sustainable development.

These five spheres of responsibility form an indissoluble whole. The managers of the Company will therefore need to continuously assess priorities and assume their responsibilities to the best of their ability in the light of this assessment.

3. Economic principles

Profitability, a vital factor, allows the company to assume its responsibilities and pursue its activities. It is a measure both of the efficacy and value that customers associate with Cofinimmo's products and services. It is an indispensable source of funding for the company and for maintaining the investment essential to developing and producing services which meet the needs of the consumer. Should the profits be insufficient or the company's financial base too precarious, it might no longer be able fully to meet the responsibilities described above.

Besides satisfying the economic criteria of the market, all investments must take account of social and environmental considerations as well as of an evaluation of the risks they may entail.

4. Corporate ethics

Cofinimmo puts strong emphasis on the principles of honesty, integrity and fairness in all spheres and expects a similar attitude by the third parties with whom it has business dealings. Direct or indirect offers, requests for or acceptance of direct or covert advantages, in whatever form, are unacceptable practices.

Members of the company bodies and the staff must avoid any conflicts of interest between their role in the company and their other activities, professional or private.

All transactions carried out on behalf of Cofinimmo must be recorded with the greatest accuracy and honesty in the company accounts in accordance with the established laws, regulations and procedures.

5. Political activities

Cofinimmo acts in a socially responsible manner according to the laws of the country in which it operates while pursuing legitimate commercial objectives.

It does not finance any political party or organization and does not make any payment to their representatives. It does not participate in any political party.

However, in its dealings with the authorities, Cofinimmo has the right and responsibility to communicate its opinion on any matter that may affect its activities or its staff, customers or shareholders. It also reserves the right to make known its opinion on subjects of general interest which are relevant to the company objects, and where, as a result of its own particular knowledge, it can make a positive input.

6. Health, safety and the environment

In keeping with its commitment to contribute towards sustainable development, Cofinimmo systematically takes into account social, health, safety, quality and environmental aspects in the conduct of its business. The aim is to achieve continuous improvements in this area. It is constantly improving its mobility policy with special attention to CO²-emissions.

To this end, it sets improvement targets and then measures, evaluates and prepares reports on the performances achieved.

7. The Community at large

It is by conducting its business in as professional a manner as possible that Cofinimmo can best contribute to social and material progress. Cofinimmo takes a constructive interest in matters of public concern which may not be directly linked to its activities.

8. Competition

Cofinimmo encourages free enterprise and, in this respect, undertakes to conduct itself in a fair manner towards its competitors, according to its ethical principles, within the framework of the prevailing laws.

9. Communication

Given the position it occupies in the market as a company making issues for general subscription, Cofinimmo is committed to pursuing a transparent communication policy. For this purpose, it draws up institutional communication plans and provides all parties having a legitimate interest with all relevant information concerning its activities, using the most appropriate means, subject, it goes without saying, to confidentiality considerations.

The external communication is the responsibility of a number of persons appointed by the company explicitly for this purpose. These people are the members of the Executive Committee as well as the Communications department, consisting of the Corporate Communication Manager and the Investor Relations Manager. These limited and centralized communication channels enable a corporate and financial communication which is consistent and in accordance with the company's strategy and image. All contact with the press or any other person drawing up financial reports on the company will be taken care of by the abovementioned persons or with their consent. As for the interviews with the

specialized press, the abovementioned persons may be accompanied by specialized members of the personnel dealing with the matters to be discussed.

Transparency of information and direct communication in-house allow the staff to assess their own contribution to the successful operation of the company.

II. CODE OF CONDUCT

Members of the company bodies and of the Staff undertake to observe all the provisions of the laws of Belgium as well as the provisions of the Code of Conduct.

In accordance with the principles and values of the Company, the rules detailed below shall apply.
